

# TITLE XI REDUCTION UPDATE

National Title XI Workshop 2005

# Purpose

**To provide information concerning the current status of the Title XI program and actions that have been taken by TRADOC in response to pending program cuts.**

# Agenda

- **Directive**
- **CSA Thoughts**
- **DA Guidance**
- **TRADOC Response**
- **What this means to you**

# Directive

**Congress, at the request of the Army, has reduced the Title XI program from 5,000 personnel to 3,500. This reduction began to take effect on 31 March 05.**

# **CSA - Why reduce TXI?**

- **Warfighting expertise has moved from the schoolhouse to the unit, specifically to the recent combat veterans in those units.**
- **The TXI Program was never intended to be a permanent program.**
- **The Army needs the soldiers to fill Units of Action (UAs).**
- **“Because I said so.”**

# **DA Guidance**

- **The CSA made the decision to reduce the number of Title XI soldiers from 5000 to 3500.**
- **DA Report to Congress described what we will do with 3500 AC soldiers; did not defend a requirement for 5000.**
- **No mitigation for the 1500 reduction is authorized.**
- **Reduction will be phased in over three years.**

# **TRADOC Response**

- **TRADOC has concurred with the DA Report to Congress.**
- **TRADOC leadership accepts the 303 reduction in TASS Title XI personnel.**
- **TRADOC has developed a three-year reduction plan and submitted the first two increments to DA.**

# **What this means to you**

- **Most proponents will retain two positions (MAJ, E-8) from the 51 untitled TDA positions.**
- **All other TXI slots (TASS BNs) will be eliminated over three years.**
- **Some proponents will lose all TXI slots in the first year (FA, ADA, AV, SSI, CH, MFTBs).**
- **Most proponents will lose the bulk of their TXI slots in second and third years.**
- **The accreditation process for TASS BNs will have to be adjusted, but RC accreditation must continue.**
